Dear Stakeholder,

It is a pleasure to present you with the “2017 Annual Stakeholder Report” for Lone Peak High School. In this report, you will find demographic data as well as information about our school’s performance and efforts to make progress.

Lone Peak High School is committed to making continuous improvement with our ongoing partnership with our community. “Together, We Climb.”

The Lone Peak Administration
School Community Council Report

The School Community Council at Lone Peak High consists of parents, teachers, and our Principal to make decisions about the Utah Land Trust Program. The Alpine School District School Board approves the plans, which are implemented the following school year. Lone Peak was allocated $242,172 this year for our plan to increase student success through:

- Reducing class size
- Providing professional development for teachers
- Enhancing student assistance center
- Additional student advocates

The programs funded by the Utah Land Trust are vital to the success of Lone Peak High School achieving the goal of student success, growth, and achievement.

LPHS AP Exam Pass Rates

Lone Peak High School offers honors and advanced placement opportunities in 24 Subjects, including art, English, foreign language, history, math, and science. Our pass rate continues to exceed the district, state, and national average. For more information on courses offered, please visit our website at lphs.alpineschools.org.

ACT & College Readiness

“The ACT test is a curriculum and standards-based educational and career planning tool that assesses students’ academic readiness for college” (act.org). Lone Peak offers ACT Prep Classes. Students are invited to enroll in after-school sessions in English, Mathematics & Science, to take practice tests and learn how to maximize their test-taking abilities. Additionally, Lone Peak High School Sophomores are administered the ACT Plan Test, and all Juniors will be given the ACT in February, at no cost to the student. LPHS Composite ACT scores lead the District, State, and Country. (see graph)

SAGE PROFICIENCY
Student Assessment for Growth and Excellence

SAGE is an adaptive computer based assessment system that was taken in the spring of 2017. This assessment measured students’ knowledge of Utah Core Standards. This assessment is part of UCAS (Utah’s Comprehensive Accountability System) to measure students’ progress through summative, interim and formative assessments and helps teachers design meaningful instruction.
Lone Peak High School Report to Stakeholders

2017

ATTEND TO ACHIEVE AT LPHS

- Data from last year shows that almost 25% of our student body missed 10% or more of their classes; that adds up to each student missing the equivalent of 18 school days in one year. We are hoping to decrease these numbers through educating patrons and gaining community support.
- Even if your student's absences are excused, they are still missing crucial instruction that can only be received in the classroom.
- Research shows that students who miss no more than 9 days of school each year stay engaged, successful and on track to graduation.
- Absences add up quickly. We track attendance daily at LPHS so you, as a parent, can keep track of your student's progress with attendance.

UTAH COLLEGE APPLICATION MONTH

November was Utah College Application Month. At Lone Peak High School, we celebrate college as a 1 year Certification, 2 year Associate's or Technical Degree, or 4 year Bachelor's Degree or beyond in planning for post high school education. Many of our students completed their college applications with the assistance of college advisors, high school counselors, and parents from the community. During the month, teachers talked about and celebrated the colleges they attended. We have so many great choices in the state of Utah for students to attend college and find their pathway to making a difference in the world.

2018 Graduation Requirements (Credits needed)

- 3.0 English Core (9,10,11)
